SUSMAN GODFREY

For the second consecutive year, leading legal publication Above the Law (ATL) has recognized Susman Godfrey as one of only 25 “Top Tier” law firms. ATL identified top tier law firms by surveying in-house attorneys at thousands of companies, ranging from small- and medium-sized private companies to large public corporations. ATL asked these in-house counsel what law firms they call when they need legal services.

Susman Godfrey is coming off of a monumental 2018, during which the firm achieved nearly three billion dollars in awards and settlements for its clients. The trial firm has an impressive roster of blue-chip clients, including General Electric, Uber, Chevron, and Amazon, who rely on Susman Godfrey to provide legal representation on significant matters.
